PROFESSIONAL EXPERIENCE

Machine Learning Intern, *CODTECH IT SOLUTIONS*   05/2025 – 06/2025
- Engaged in diverse aspects of machine learning.
- Exploring data preprocessing techniques, including feature scaling and selection, for optimizing model performance.

EDUCATION

B.Tech in Information Technology,   2023 – present
Anil Neerukonda Institute Of Technology and Sciences
CGPA : 9.04

TECHNICAL SKILLS

Programming
- Python, Java
- SQL
- C++, C
- DSA, OOPs

Web Development
- HTML & CSS
- JavaScript
- React.Js

Course Work
- Operating Systems, DBMS
- Computer Networks
- Software Engineering

PROJECTS

SMART INDIAN HACKATHON 2024
- Addressed a critical problem statement in the agricultural domain by designing innovative solutions to optimize fertilizer use and distribution.
- Develpoed a prototype regarding our problem statement and acted as key role member in this Hackathon Project.
- Cleared First and second Levels of this hackathon.

INVENTORY DATABASE MANAGEMENT SYSTEM
- Analyzed existing inventory workflows to identify inefficiencies and areas for improvement.
- Developed a scalable inventory management solution using SQL
- Automated processes such as stock monitoring, order management, and reporting to improve accuracy and efficiency

ACCOUNTING SYSTEM DEVELOPMENT PROJECT
- Analyzed existing financial workflows to identify inefficiencies and optimization opportunities.
- Ensured system security and compliance with financial regulations
- Developed features such as ledger management, invoice generation, tax computation
